Product Description

Get your replacement or spare Mul-T-Lock Integrator keys cut to code by an official, authorised Mul-T-Lock dealer. We use only genuine Mul-T-Lock Integrator key blanks and high-precision key cutting machinery to ensure a perfect, smooth operation every time.

To order, you will need to provide your unique 7-digit key code. This code is typically found on the security card supplied with your original lock or keys. For the 348 series, the code format consists of two numbers, followed by the letter 'E', and then four numbers (for example: 27E1199).

Please note that '348' or '348E' refers to the key profile/type and is not the unique key code itself.

If you have lost your security code card, please email us a clear, overhead photograph of your key. Our team will review the image and guide you on how to place your order.

Technical Specifications

- **Key Blank Type:** Genuine Mul-T-Lock Integrator
- **Compatible Profile:** 348 / 348E
- **Code Format:** 7 characters (2 numbers, 'E', 4 numbers; e.g., 27E1199)
- **Cutting Method:** Cut to code using precision machinery

Key Features

- **Genuine Blanks:** Cut using official Mul-T-Lock Integrator key blanks for maximum reliability and longevity.
- **Authorised Dealer:** Cut by an official Mul-T-Lock dealer to guarantee precision and quality.
- **Easy Ordering:** Simply provide your 7-digit code from your security card to order.
- **Alternative Ordering Option:** If your card is lost, send us a clear overhead photo of your key for guidance on how to order.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
