Specification Summary

Brand	Multlock
Product type	Banham Cylinders

Product Description

The **Mul-T-Lock Integrator Banham Compatible Cylinder** is a high-security replacement cylinder designed to fit existing Banham-style lock cases. It offers an easy upgrade path for residential and commercial doors, allowing you to enhance key control and security without the expense of replacing the entire lock hardware.

Operating on the patented **Mul-T-Lock Integrator** platform, this cylinder utilizes a high-precision pin tumbler mechanism. The patent-protected key design prevents unauthorised key duplication, as additional keys can only be cut upon presentation of the unique security code card. This makes it a popular choice for landlords, flat management companies, and commercial properties.

These cylinders can be keyed alike to work with other locks in the Integrator range - such as padlocks, rim cylinders, and euro cylinders - or integrated into a complex master key system. They are available in finishes such as Satin Steel and Brass, and in double key or thumbturn (denoted by 'V') configurations.

Please note: Standard cylinders are supplied with a security code card and 2 keys. If ordering multiple locks keyed alike, 2 keys are supplied for the set in total.

Technical Specifications

- **Manufacturer:** Mul-T-Lock
- **Key Platform:** Integrator (7-pin tumbler mechanism)
- **Compatibility:** Fits existing Banham-style lock cases
- **Configurations:** Available in Double Key or Thumbturn (V) options
- **Finishes:** Available in Satin Steel and Brass
- **Sizes:** Available in sizes including 76mm (38/38) and 101mm (33/68)
- **Keys Supplied:** 2 keys per standard cylinder (plus security code card)

Key Features

- **Patented Key Protection:** Keys cannot be copied without authorisation, protecting against unauthorised duplication.

- **Banham Compatible:** Direct replacement for worn or damaged Banham cylinders without replacing the entire lock.
- **Flexible Keying Options:** Can be keyed alike or master-keyed to work with other Mul-T-Lock Integrator locks.
- **Enhanced Security:** High-precision 7-pin mechanism offers reliable resistance against manipulation.
- **Security Card Included:** Supplied with a security code card for secure, authorised key cutting.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
