Is Cylinder

Product Description

The Mul-T-Lock Integrator Euro Profile Single Cylinder (Half Euro) offers high-security protection for applications requiring key access from one side only, such as garage doors, roller shutters, and utility cupboards.

Featuring Mul-T-Lock's patented Integrator key platform, this cylinder provides excellent protection against unauthorised key duplication. Each cylinder is supplied with a unique coded security card, ensuring keys can only be cut by authorised dealers. The high-precision pin tumbler mechanism offers robust resistance to drilling and picking, while the reversible dimple keys ensure smooth, user-friendly operation.

These cylinders can be keyed alike (so multiple locks operate on the same key) or integrated into a master key suite. They are available in both Brass and Satin Steel finishes, with lengths ranging from 40.5mm to 76mm. For specialist installations like garage doors or roller shutter boxes, select variants feature a Multi-Position (Multi-POS) adjustable cam. Please choose your required size, finish, and cam configuration from the options below.

Technical Specifications

- **Cylinder Type:** Euro profile single cylinder (Half Euro)
- **Key Platform:** Mul-T-Lock Integrator (patented)
- **Key Type:** Reversible dimple key
- **Finishes:** Brass or Satin Steel (choose from the options below)
- **Lengths Available:** 40.5mm to 76mm (choose from the options below)
- **Cam Options:** Standard or Multi-Position (Multi-POS) adjustable cam
- **Security Protection:** Drill and pick resistant mechanism

Key Features

- **Patented Key Control:** Supplied with a unique coded security card to prevent unauthorised key duplication.
- **Reversible Keys:** User-friendly dimple keys insert easily either way up.
- **Multi-POS Cam Option:** Adjustable cam positions make it ideal for specialist applications like garage doors and roller shutters.
- **Flexible Keying Options:** Can be keyed alike or master-keyed to work with other Mul-T-Lock Integrator locks.
- **Robust Construction:** High-precision mechanism designed for durability and reliable security.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
