Specification Summary

Brand	Multlock
Product type	Rim Cylinders

Product Description

The Mul-T-Lock Integrator M7i Ingersoll Replacement Rim Cylinder is a high-security cylinder designed specifically to fit Ingersoll nightlatches, including the popular SC71, SC72, and SC73 models. It offers an ideal security upgrade or replacement, allowing you to integrate your Ingersoll lock into a wider Mul-T-Lock Integrator master key or keyed-alike system.

Utilising Mul-T-Lock's high-precision 7-pin mechanism, this cylinder provides excellent resistance against picking and drilling. It operates on the patented 348E key section and comes supplied with a coded security card. This ensures advanced key control, as additional keys can only be cut by authorised Mul-T-Lock dealers upon presentation of the card.

This replacement cylinder is available in both Brass and Satin Steel finishes to match your existing door hardware. Please select your preferred finish from the options below.

Technical Specifications

- **Compatibility:** Designed to suit Ingersoll nightlatches (including SC71, SC72, and SC73)
- **Key Platform:** Mul-T-Lock Integrator (M7i)
- **Key Section:** 348E
- **Mechanism:** High-precision 7-pin tumbler system
- **Keys Supplied:** 2 keys
- **Security Card:** Included for restricted key duplication
- **Finishes Available:** Brass and Satin Steel (please choose from the options below)

Key Features

- **Ingersoll Compatible:** Seamlessly replaces standard cylinders in Ingersoll SC71, SC72, and SC73 nightlatches.
- **Advanced Key Control:** Coded security card prevents unauthorised key duplication, ensuring only authorised users can obtain spares.
- **System Integration:** Can be keyed alike or master-keyed alongside other locks in the Mul-T-Lock Integrator range, including euro cylinders, padlocks, and rim locks.
- **High-Security Design:** Features a robust 7-pin mechanism for enhanced pick and drill resistance.

- **Premium Finishes:** Available in Brass and Satin Steel to complement your door's aesthetic.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
