Specification Summary

Brand	Multlock
Product type	Rim Cylinders

Product Description

The Mul-T-Lock Integrator Rim Cylinder is a high-security replacement cylinder designed to suit most standard nightlatches and rim locks. Ideal for both residential and commercial applications, this cylinder provides robust protection against common forced entry methods, including lock picking, drilling, and bumping.

Featuring a high-quality 7-pin tumbler mechanism, the Integrator platform offers excellent key control. Each cylinder is supplied with a unique security card, ensuring that duplicate keys can only be cut by authorised Mul-T-Lock dealers upon presentation of the card. This system is highly versatile and can be keyed alike or master-keyed to work alongside other locks in the Integrator range, allowing you to operate your front door, padlocks, and other security locks with a single key.

Available in both Brass and Satin Steel finishes, please select your preferred option from the choices below.

Technical Specifications

- **Cylinder Type:** Rim cylinder (suitable for standard nightlatches)
- **Mechanism:** 7-pin high-precision tumbler system
- **Material:** High-quality brass body and plug, steel tailpiece
- **Keying Options:** Keyed different, keyed alike, or master keyed (compatible with the wider Integrator range)
- **Keys Supplied:** 2 reversible nickel silver keys
- **Security Card:** Included for authorised key duplication
- **Finishes:** Brass and Satin Steel (please choose from the options below)

Key Features

- **High Security:** Designed to resist lock picking, drilling, and bumping for enhanced peace of mind.
- **Patented Key Control:** Supplied with a security code card to prevent unauthorised key duplication.
- **Reversible Keys:** Flat, user-friendly keys that insert easily either way up.
- **Versatile Integration:** Can be keyed alike to other Integrator locks, including euro cylinders and padlocks, for one-key convenience.
- **Universal Compatibility:** Fits most standard surface-mounted nightlatches and rim locks.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
