Specification Summary

Brand	Multlock
Product type	Scandinavian Oval

Product Description

The Mul-T-Lock Integrator Scandinavian Oval cylinder is a high-quality, secure locking solution designed specifically for use with ASSA and other Swedish/Nordic modular lock cases. Ideal for both residential and commercial applications, this cylinder offers a robust upgrade to standard oval profile locks.

Built on Mul-T-Lock's patented Integrator mechanical platform, it features a high-precision 7-pin tumbler mechanism. The system utilizes a unique launcher pin inside the cylinder that interacts with a patented, copy-protected oval cut on the key blank. This advanced design provides enhanced tamper resistance and strict key control, ensuring duplicate keys can only be cut by an authorised dealer upon presentation of the unique key registration card.

This cylinder is available in three configurations to suit your installation needs: an external cylinder, an internal cylinder, or as a complete internal and external pair. Please select your required option from the list below.

Technical Specifications

- **Cylinder Profile:** Scandinavian Oval (compatible with ASSA-style lock cases)
- **Key Platform:** Mul-T-Lock Integrator (7-pin tumbler mechanism)
- **Finish:** Satin Steel
- **Key Type:** Reversible nickel silver dimple key
- **Configurations Available:** External cylinder, Internal cylinder, or Pair (Internal & External)
- **Operation:** 360° rotation with operating key

Key Features

- **Patented Key Control:** Keys are protected against unauthorised duplication and can only be cut upon presentation of the unique key registration card.
- **Enhanced Security:** High-precision 7-pin mechanism with unique launcher pins offers superior resistance to picking and tampering.
- **Flexible Configurations:** Available as individual internal or external cylinders, or as a matching pair to secure both sides of the door.
- **Reversible Keys:** Flat, user-friendly keys can be inserted either way up for convenience.

- **Durable Construction:** High-quality brass body and plug with a satin steel finish for long-lasting performance and aesthetic appeal.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
