Specification Summary

Brand	Multlock
Product type	Half Oval

Product Description

The Mul-T-Lock Integrator UK Half Oval Cylinder offers high-security protection with a patent-protected key system, making it an excellent choice for both commercial and residential properties. Because keys cannot be copied without your knowledge or authorisation, this cylinder is particularly popular with landlords and business owners seeking to prevent unauthorised access.

Built with a high-precision 7-pin tumbler mechanism, the Integrator platform provides robust physical security. These half oval cylinders can be keyed to differ, keyed alike (where multiple locks operate on the same key), or integrated into a master key system. They can also be keyed to work seamlessly with other locks in the Mul-T-Lock Integrator range, including padlocks, rim cylinders, and euro cylinders.

Each standard cylinder is supplied with a security code card and two keys. Please note that keyed alike sets are supplied with two keys in total for the entire set.

Technical Specifications

- **Cylinder Profile:** UK Half Oval
- **Mechanism:** High-precision 7-pin tumbler system
- **Patent Protection:** Yes, patented key and key blank system
- **Finishes Available:** Satin Steel and Brass
- **Keying Options:** Keyed to differ, keyed alike, or master keyed
- **Keys Supplied:** 2 keys per standard cylinder (keyed alike sets include 2 keys in total for the set)
- **Security Card:** Included for authorised key duplication

Key Features

- **Patented Key Protection:** Prevents unauthorised key duplication without the security code card, ideal for landlords and commercial premises.
- **Versatile Keying:** Can be keyed alike or master-keyed with the entire Mul-T-Lock Integrator range, including padlocks, rim cylinders, and euro profile locks.
- **High-Precision Security:** Features a robust 7-pin mechanism with unique launcher pins for enhanced picking resistance.

- **Durable Construction:** Manufactured from high-quality materials to ensure long-lasting performance and reliable operation.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
