Product Description

Get genuine, high-security replacement or spare keys for your Mul-T-Lock Interactive+ system. These keys are professionally cut to code by an official, authorised Mul-T-Lock dealer using only genuine Mul-T-Lock 206S key

blanks.

The patented Interactive+ system utilises advanced telescopic pinning technology and a unique moving element within the key to provide superior protection against unauthorised duplication.

Ordering your replacement keys is quick and simple. Locate your unique key code - which typically looks like **CZDDA 30341** - on your original key or security card. Enter this code into the designated box on this page, select the quantity you require, and we will precision-cut your keys to the exact manufacturer specifications.

Technical Specifications

- **Key System:** Mul-T-Lock Interactive+ (Interactive Plus)
- **Keyway Profile:** 206S
- **Key Blank:** Genuine Mul-T-Lock branded blank
- **Code Format Example:** CZDDA 30341 (or similar)

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
