Specification Summary

Brand	Multlock
Product type	Camlock

Product Description

The Mul-T-Lock Interactive+ (MTL600) Camlock offers high-security protection for sensitive storage areas, including cabinets, lockers, drawers, cash boxes, and display cases. Utilising Mul-T-Lock's renowned telescopic pin tumbler mechanism, this camlock provides exceptional resistance against picking, drilling, and physical attacks.

The Interactive+ platform features a patented moving element within the key, ensuring strict key control and preventing unauthorised key duplication. This makes it an ideal choice for commercial, retail, or domestic environments where key security is paramount.

These camlocks are available in multiple cylinder lengths (19mm, 22mm, and 29mm) and can be configured for either key-retaining or key-removing operation. Please select your preferred cylinder size and operation from the options below.

Technical Specifications

- **Cylinder Lengths:** 19mm, 22mm, and 29mm (please select below)
- **Operation:** Key Retaining (key cannot be removed when unlocked) or Key Removing (key can be removed in both locked and unlocked positions)
- **Rotation:** 90° cam rotation (adjustable for clockwise or counter-clockwise operation)
- **Material:** Brass body, plug, and ring with a nickel finish
- **Locking Mechanism:** High-precision telescopic pin tumbler system (Interactive+ / MTL600 platform)
- **Security Pins:** Hardened steel inserts for drill resistance

Key Features

- **High-Security Protection:** Ideal for securing cabinets, lockers, cash boxes, and drawers.
- **Patented Key Control:** Features a moving element in the key to prevent unauthorised key duplication.
- **Pick & Drill Resistant:** Built with telescopic pins and hardened steel inserts to resist manipulation and drilling.
- **Flexible Operation:** Adjustable for clockwise or counter-clockwise rotation to suit your installation.
- **Multiple Sizes Available:** Choose from a range of cylinder lengths and key-retention options to match your specific requirements.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
