Is Cylinder

Product Description

The Mul-T-Lock Interactive+ (MTL600) Euro Single Cylinder (Half Euro) offers high-security protection for applications requiring key access from one side only, such as garage doors, key switches, panic bars, and patio doors. Utilizing Mul-T-Lock's patented telescopic pin tumbler mechanism, this cylinder combines inner and outer pins with a unique floating key element to deliver exceptional resistance against drilling, picking, and bumping.

To ensure maximum security, the Interactive+ system features restricted key duplication. Keys can only be cut by authorised dealers upon presentation of the unique security code card supplied with the cylinder.

These half euro cylinders are available in a high-quality nickel finish and a variety of lengths ranging from 42.5mm to 57.5mm. Specialised configurations, including Multi-POS (multi-position) and R-cam options, are also available to ensure compatibility with different lock cases. Please select your required size and cam configuration from the options below.

Technical Specifications

- **Cylinder Type:** Euro Single (Half Euro) Cylinder
- **Key Platform:** Mul-T-Lock Interactive+ (MTL600)
- **Finish:** Nickel
- **Lengths Available:** 42.5mm to 57.5mm (choose from options below)
- **Cam Options:** Standard, R-Cam, and Multi-POS (multi-position) configurations
- **Locking Mechanism:** High-precision telescopic pin tumbler system
- **Security Standards:** Patented key control with floating element

Key Features

- **Patented Key Protection:** Features a unique floating element on the key to prevent unauthorised key duplication.
- **Restricted Key Copying:** Supplied with a security code card; keys can only be duplicated by authorised dealers.
- **Attack Resistant:** Engineered with high resistance to drilling, picking, and bumping.
- **One-Sided Access:** Perfect for garage doors, key switches, and patio doors where locking is only needed from the outside.
- **Reversible Keys:** Supplied with user-friendly, reversible nickel silver keys featuring a comfortable plastic head.
- **Versatile Configurations:** Available in multiple sizes and cam setups to fit a wide range of lock cases.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
