Specification Summary

Brand	Multlock
Product type	Rim Cylinders

Product Description

The Mul-T-Lock Interactive+ Ingersoll Compatible Rim Cylinder is a premium, high-security replacement cylinder designed specifically to suit Ingersoll nightlatches, including the SC71, SC72, and SC73 models. Upgrading your existing lock to the Mul-T-Lock Interactive+ (MTL600) platform significantly enhances your property's security.

This cylinder features Mul-T-Lock’s advanced telescopic pin tumbler mechanism, which utilizes both internal and external pins to form a three-dimensional shear line. Additionally, a unique spring-loaded interactive pin in the cylinder plug creates a "virtual combination" only when the correct key is inserted. This provides exceptional resistance against picking, bumping, and drilling, while the patented key control ensures keys can only be duplicated upon presentation of the unique security card.

To ensure a seamless match with your existing door hardware, this cylinder is available in multiple finishes, including Brass, Nickel, and Polished Chrome. Please select your preferred finish from the options below.

Technical Specifications

- **Compatibility:** Designed to suit Ingersoll nightlatches (including SC71, SC72, and SC73)
- **Cylinder Type:** Rim cylinder
- **Key Platform:** Mul-T-Lock Interactive+ (MTL600)
- **Mechanism:** Telescopic pin tumbler system with spring-loaded interactive pin
- **Body Material:** High-quality brass
- **Available Finishes:** Brass, Nickel, and Polished Chrome

Key Features

- **High Security:** Advanced protection against picking, drilling, and bumping
- **Patented Key Control:** Keys can only be duplicated by authorized dealers upon presentation of the unique security card
- **Virtual Combination:** Spring-loaded interactive pin in the plug ensures maximum manipulation resistance
- **Durable Construction:** Built with a high-quality brass body and plug with steel anti-drill inserts
- **Aesthetic Options:** Multiple finish options available to match your door's existing hardware

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
