Specification Summary

Brand	Multlock
Product type	Rim Cylinders

Product Description

The Mul-T-Lock Interactive+ (MTL600) Rim Cylinder is a premium high-security cylinder designed to upgrade standard nightlatches and surface-mounted door locks. Utilizing Mul-T-Lock's patented telescopic pin-in-pin technology alongside a unique floating element on the key, this cylinder provides robust protection against common lock-attack methods, including picking, drilling, and bumping.

Perfect for both residential and commercial properties, the Interactive+ platform offers strict key control. Keys can only be duplicated by authorised dealers upon presentation of the unique coded key registration card, ensuring complete peace of mind against unauthorised key copying.

This high-security rim cylinder is available in both Brass and Nickel finishes to seamlessly match your existing door hardware. Please select your preferred finish from the options below.

Technical Specifications

- **Platform:** Mul-T-Lock Interactive+ (MTL600)
- **Cylinder Type:** Rim cylinder
- **Body Material:** High-quality brass
- **Pins:** Nickel silver and stainless steel telescopic pins
- **Finishes Available:** Brass and Nickel (please choose from the options below)
- **Security Protection:** High resistance to drilling, picking, and bumping
- **Key Control:** Patented key duplication card system

Key Features

- **Patented High Security:** Features a unique telescopic pin-in-pin mechanism combined with a floating key element for superior security.
- **Advanced Key Control:** Restricts key duplication to authorised dealers only, requiring the unique coded security card.
- **Attack Resistant:** Engineered with hardened steel inserts and high-precision pins to resist picking, drilling, and bumping.
- **Versatile Compatibility:** Designed to fit and upgrade most standard surface-mounted nightlatches.
- **Finish Options:** Available in Brass and Nickel finishes to complement your door furniture.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
