Specification Summary

Brand	Multlock
Product type	Half Oval

Product Description

The Mul-T-Lock Interactive+ UK Oval Single Cylinder (Half Oval) offers premium high-security protection for doors and lockcases that require a UK oval profile. Designed for single-sided locking applications, this cylinder is ideal for perimeter gates, garage doors, and commercial lockcases where key access is only required from one side.

This high-security cylinder is available in both Brass and Nickel finishes to seamlessly match your existing door ironmongery. Please select your preferred finish from the options below.

At the heart of the cylinder is Mul-T-Lock's patented Interactive+ (MTL600) platform. This advanced system utilizes a unique telescopic pin tumbler mechanism combined with a patented floating element in the key. This dual-action security provides exceptional resistance against picking, drilling, and bumping. Additionally, the patented key control system ensures that extra keys can only be duplicated by authorized dealers upon presentation of the unique key registration card, preventing unauthorized key copying.

Technical Specifications

- **Cylinder Profile:** UK Oval (Half / Single)
- **Overall Length:** 42.5mm
- **Platform:** Mul-T-Lock Interactive+ (MTL600)
- **Body Material:** High-quality brass
- **Finishes Available:** Brass and Nickel
- **Key Type:** Reversible dimple key

Key Features

- **Patented Key Control:** Supplied with a unique security card to prevent unauthorized key duplication.
- **Advanced Telescopic Pins:** High-precision pin-in-pin mechanism offers superior resistance to picking and bumping.
- **Patented Floating Element:** Key features a unique moving element that interacts with the cylinder's internal pins for enhanced security.
- **Drill Resistant:** Internal steel pins and robust construction protect against physical drilling attacks.
- **Multiple Finishes:** Choose between classic Brass or modern Nickel finishes below to suit your door hardware.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
