Code Count	2
Labels Locked	Yes

Order	Label	Placeholder	Required
0	5 LETTERS	Starts Z, then A > D	Yes
1	5 NUMBERS	Starts 0, then 1 > 5	Yes

Product Description

Get your extra or replacement keys cut to code with our professional Mul-T-Lock MTL600 Interactive 115 Plus key cutting service. We use only genuine Mul-T-Lock MTL600 key blanks and high-precision machinery to ensure your

new keys operate as smoothly and reliably as your originals.

The patented MTL600 (Interactive+) platform offers advanced high-security protection. To maintain this strict security, these keys are protected and can only be duplicated upon receipt of your unique Mul-T-Lock security code card. Simply send us a clear photo of your card when placing your order. Please ensure your card features the "115" or "115S" profile reference, alongside the 10-digit key code.

MTL600 keys are fully backwards compatible, meaning they will work seamlessly with both newer MTL600 (Interactive+) locks and older, original Interactive lock systems. Upgrading your older Interactive keys to the patented MTL600 design allows you to benefit from enhanced copy protection across your existing security setup.

Technical Specifications

- **Key Blank:** Genuine Mul-T-Lock MTL600
- **Compatible Profiles:** 115S / 115S+ / 115
- **Key Code Format:** 10-digit code (e.g., ZABCD12345)

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
