Specification Summary

Brand	Multlock
Product type	Mul-T-Lock Padlocks NE/NG Range
Keyway	MTL Padlocks NE/G

Product Description

The Mul-T-Lock NE12 Open Shackle Padlock is a heavy-duty, high-security locking solution designed to protect commercial and domestic properties against aggressive physical attacks and harsh weather conditions.

Constructed with a robust case-hardened steel body and a 12mm hardened boron alloy steel shackle, this padlock offers exceptional resistance to cutting, sawing, and bolt-cutter attacks. A double ball bearing locking mechanism ensures high tensile strength and prevents pulling attacks.

Engineered for reliable outdoor performance, the NE12 features a black electrophoretic finish for superior corrosion resistance. It is equipped with integrated drainage holes to prevent water retention and freezing, alongside a protective dust shutter to shield the cylinder from dirt, grit, and moisture. For added security, the padlock is key-retaining, meaning the key can only be removed when the padlock is fully locked.

Technical Specifications

- **CEN Rating:** Grade 5
- **Sold Secure Rating:** Silver
- **Body Width:** 66mm
- **Shackle Diameter:** 12mm

- **Vertical Clearance:** 25mm
- **Horizontal Clearance:** 30mm
- **Body Material:** Case-hardened steel
- **Shackle Material:** Hardened boron alloy steel
- **Keyway Platform:** MTL Padlocks NE/G key platform
- **Locking Mechanism:** Double ball bearing

Key Features

- **High-Security Protection:** CEN Grade 5 and Sold Secure Silver certified for robust peace of mind against physical attacks.
- **Heavy-Duty Construction:** Case-hardened steel body with a 12mm boron alloy steel shackle provides maximum resistance against cutting and sawing.
- **Weatherproof Design:** Black electrophoretic coating, drainage holes, and a protective dust shutter shield the lock from corrosion, freezing, and debris.
- **Key Retaining Safeguard:** The key can only be removed when the padlock is securely locked, preventing accidental unlocked status.
- **Drill and Pick Resistance:** Advanced protection against drilling, picking, and bumping attempts.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
