Specification Summary

Brand	Multlock
Product type	Mul-T-Lock Padlocks NE/NG Range
Keyway	MTL Padlocks NE/G

Product Description

The Mul-T-Lock NG8 Open Shackle Padlock is a high-security locking solution designed to provide robust protection for both domestic and commercial applications. Certified to CEN Grade 3 (EN 12320), this heavy-duty padlock is ideal for securing gates, warehouses, machinery, and storage units against forceful entry.

Constructed with a case-hardened steel body and an 8mm hardened boron alloy steel shackle, the NG8 offers exceptional resistance to cutting, drilling, and sawing. Security is further enhanced by a double ball bearing locking mechanism that resists pulling and twisting attacks, requiring a 90-degree key rotation to release.

Engineered for reliable outdoor performance, the padlock features a black electrophoretic finish for superior corrosion resistance. Integrated drainage holes prevent water build-up and internal freezing in harsh winter conditions. For added security, the key-retaining design ensures the padlock cannot be left unlocked accidentally, as the key can only be removed when the shackle is fully locked.

Technical Specifications

- **CEN Rating:** Grade 3 (EN 12320)
- **Body Material:** Case-hardened steel
- **Shackle Material:** Hardened boron alloy steel

- **Body Width:** 54mm
- **Body Height:** 52mm
- **Body Thickness:** 25mm
- **Shackle Diameter:** 8mm
- **Horizontal Shackle Clearance:** 24mm
- **Vertical Shackle Clearance:** 27mm
- **Finish:** Black electrophoretic

Key Features

- **High Security:** CEN Grade 3 certified, offering reliable protection against physical attacks.
- **Hardened Shackle:** 8mm boron alloy steel shackle provides excellent resistance to cutting and sawing.
- **Double Ball Bearing Locking:** High resistance to pulling, prying, and twisting.
- **Weather Resistant:** Black electrophoretic finish and integrated drainage holes prevent corrosion and freezing.
- **Key Retaining:** Key cannot be removed while the padlock is open, ensuring it is always locked after use.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
