Specification Summary

Brand	Multlock
Product type	Mul-T-Lock Padlocks NE/NG Range
Keyway	MTL Padlocks NE/G

Product Description

The Mul-T-Lock SBNE12 Sliding Shackle Padlock (NE12 SB) is an extra high-security padlock designed to provide maximum protection for commercial, industrial, and high-risk domestic applications. Boasting a CEN Grade 5 rating and Sold Secure Gold approval, this padlock is engineered to withstand severe physical attacks.

Featuring a heavy-duty case-hardened steel body coupled with a 12mm sliding bolt made from hardened boron alloy steel, this padlock offers exceptional resistance against cutting, sawing, and bolt-cutter attacks. Its sliding shackle (or straight pin) design makes it ideal for applications with limited clearance, such as security lockboxes, shipping containers, gates, and shutters.

Built to endure harsh outdoor environments, the SBNE12 is finished with a black electrophoretic coating for superior corrosion resistance. It features a protective shutter to keep dust and dirt out of the cylinder, alongside integrated drainage holes that prevent water build-up and freezing in cold weather.

Technical Specifications

- **Body Width:** 80mm
- **Body Height:** 66mm
- **Body Depth:** 28mm

- **Shackle Diameter:** 12mm
- **Shackle Clearance:** 36mm (Horizontal) x 18mm (Vertical)
- **Security Rating:** CEN Grade 5 / Sold Secure Gold
- **Body Material:** Case-hardened steel
- **Shackle Material:** Hardened boron alloy steel
- **Finish:** Black electrophoretic coating

Key Features

- **CEN Grade 5 & Sold Secure Gold Certified:** Independently tested to offer premium protection against physical attacks.
- **12mm Sliding Shackle:** Hardened boron alloy steel straight pin design, ideal for tight clearances like shipping containers and lockboxes.
- **Weatherproof Design:** Black electrophoretic finish, protective dust shutter, and integrated drainage holes prevent corrosion and freezing.
- **Non-Key Retaining:** Allows the key to be removed while the padlock remains unlocked for convenient operation.
- **High-Security Cylinder:** Features drill and pick-resistant cylinder protection to deter tampering.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
