Specification Summary

Brand	N&C Phlexicare
Product type	Fire Brigade Locks

Product Description

The genuine N&C Phlexicare RADAR lockset is designed for disabled public toilets as part of the National Key Scheme (NKS), providing independent access for disabled users with a standard Radar key. Now in its 5th generation, this high-quality 6-lever lockset features a modern rounded-edge design and is designed to easily retrofit into existing installations.

The lockset includes an external indicator to show occupancy, an external emergency coin release for safety, and secure bolt-through fixings. It meets the requirements of BS8300 and comes complete with one genuine Radar key.

This lockset is available in both Left Hand and Right Hand configurations. To determine the correct handing for your door, stand inside the toilet cubicle:

- If the hinges are on the right, you will need a **Right Hand** lockset.
- If the hinges are on the left, you will need a **Left Hand** lockset.

Please select your required handing, barcode, and manufacturer reference from the options below.
