Specification Summary

Brand	PAC
Product type	Pac

Product Description

The PAC Ops Lite Proximity Fob Blue (21104 / 909021104) is a high-frequency RFID token designed for secure and reliable access control. Operating at 13.56MHz, these fobs utilise MIFARE Classic 1K technology with a unique 4-byte serial number (NUID) to provide robust credential security and minimise the risk of cloning.

Constructed from durable blue ABS plastic, each fob is fully encapsulated, double-sealed, and ultrasonically welded. This makes them highly resilient and ideal for use in demanding or harsh environments. The fobs are completely passive and self-powered, meaning they require no batteries to operate.

Supplied in a convenient pack of 10, each fob comes complete with a blue attachment clip for easy carrying on keyrings or lanyards. They are fully compatible with PAC HF readers, PAC MT readers, and Architect readers, and are backed by a manufacturer's lifetime warranty against electronic failure.

Technical Specifications

- **Brand:** PAC
- **Manufacturer Reference:** 909021104 (formerly 21104)
- **Frequency:** High Frequency (13.56MHz)
- **Technology:** MIFARE Classic 1K (4-byte NUID)
- **Dimensions:** 60mm (H) x 33mm (W) x 6mm (D)
- **Finish:** Blue
- **Compatibility:** PAC HF readers, PAC MT readers, and Architect readers
- **Pack Quantity:** 10

Key Features

- **Durable Construction:** Fully encapsulated in blue ABS plastic, double-sealed, and ultrasonically welded for harsh environments.
- **Convenient Design:** Supplied with a blue attachment clip for easy carrying.
- **Battery-Free Operation:** Passive RFID technology requires no power source or batteries.
- **Enhanced Security:** Utilises MIFARE technology to reduce the risk of credential cloning.
- **Lifetime Warranty:** Covered by a manufacturer's lifetime guarantee against electronic failure.
