Specification Summary

Brand	PJB
Product type	Ground Anchor

Product Description

The PJB Oxford BruteForce High Security Wall / Ground Anchor is a robust, versatile security solution designed to protect your motorcycles, motor scooters, and bicycles. Suitable for both floor and wall mounting, this surface-fitted anchor provides a highly secure locking point for your valuable two-wheelers at home, in a garage, or at the workplace.

Constructed from 5mm thick hardened steel, the BruteForce is built to withstand aggressive physical attacks. It is Sold Secure Silver approved (Cycle), offering excellent peace of mind and helping to meet typical insurer requirements. The anchor features a striking blue powder-coated finish that not only looks professional but also provides durable resistance against rust and weathering.

Installation is straightforward, as the anchor is supplied complete with all necessary heavy-duty fixings, steel ball inserts to protect the bolt heads from tampering, and an Allen key.
