### Product Description

The RGL PS-TL12 (also referenced as the ICS PS12V-AC-3A) is a robust, boxed power supply designed to deliver a reliable 12V AC output. Housed in a durable white clam shell enclosure, this 3 Amp power supply is ideal for powering access control accessories and compatible electric locks requiring a 12V AC power source.

Engineered for safety and longevity, the unit features built-in output fuse protection to safeguard connected components from electrical faults. Its compact clam shell design ensures straightforward installation and neat cable management, making it a dependable choice for security installations.

## Technical Specifications

- **Brand:** ICS
- **Manufacturer Reference:** PS12V-AC-3A (PS-TL12)
- **Input Voltage:** 230V AC mains
- **Output Voltage:** 12V AC
- **Output Current:** 3 Amp AC
- **Output Fuse Protection:** Yes
- **Backup Battery:** No

- **Visual Fault Indicator:** No
- **Case Finish:** White
- **Length:** 22.5cm
- **Width:** 142mm
- **Height:** 80mm
- **Depth:** 80mm
- **Weight:** 3.75kg
- **Pack Quantity:** 1

## Key Features

- **Reliable 12V AC Output:** Delivers a steady 3 Amp current suitable for powering compatible electric locks and access control accessories.
- **Durable Clam Shell Box:** Housed in a robust white enclosure for enhanced protection and longevity.
- **Integrated Fuse Protection:** Features built-in output fuse protection to safeguard connected equipment against electrical faults.
- **Clean Installation:** The clam shell design allows for straightforward mounting and neat cable management.

## Brand Profile

ICS

**ICS Security (ICS Security Solutions Ltd)** is a UK access-control hardware brand and supplier focused on the “nuts and bolts” of electronic door control: **maglocks, electric locks/bolts, strikes, lock releases, and packaged locking kits** designed to make access-control installs cleaner and more reliable. They describe themselves as an access-control specialist founded in **2003**, with **20+ years** in the sector.

They operate from **Blisworth, Northamptonshire** (Units 1–2, JBJ Business Park, Northampton Road, NN7 3DW), supporting trade customers with a range that covers the common building blocks of access control systems.

Product-wise, ICS’s catalogue is very “installer reality”:

- **Magnetic locks** in multiple formats (standard, slimline/transom, stainless, monitored, with door status options), typically running **12–24V DC selectable** and specced by holding force (e.g., 600–1200 lbs and up).
- **Electric locks / bolts and locking kits**, including “compliant lock packages” that bundle the parts needed for controlled entry with free egress, calling out standards like **EN179 / EN1125** in their kit descriptions.
- A broader access-control “system parts” approach: they position the range as covering “all parts of access control systems,” aiming to let installers choose a complete solution from one source.
