Specification Summary

Brand	Ronis
Product type	Snap Fix

Product Description

The RONIS 10800 Mini Clip Fix Master Keyed Camlock is a compact, high-quality wafer lock designed for secure and efficient installation. Ideal for applications such as metal office furniture, lockers, retail displays, and storage units, this robust camlock is manufactured from durable Zamak to ensure a long life cycle and reliable performance.

This model is master keyed under the popular SM key series, allowing it to be seamlessly integrated into a new or existing master key system for convenient multi-lock management. It features a round face, a short 8.3mm body length, and a convenient horseshoe clip (snap fix) mechanism that enables quick, secure installation without the need for complex tools. Operating with a 180° clockwise and anti-clockwise movement, this camlock provides versatile locking options and is supplied complete with two keys.

Technical Specifications

- **Brand:** Ronis
- **Manufacturer Reference:** 10800-D02-L1-C1-SM
- **Body Length:** 8.3mm
- **Body Diameter:** 16.1mm

Brand Profile

Ronis

RONIS is an industrial locking brand best known for the unglamorous-but-essential stuff that keeps the modern world closed: **cam locks, quarter-turn locks, enclosure locks, locker/furniture locks**, and other OEM-friendly locking components used in **electrical cabinets, switchgear, lockers, vending/utility enclosures, postal equipment, and industrial furniture**. It's the kind of brand you don't notice until a whole site can't open a cabinet, and then suddenly it's the main character.

Today, **RONIS is a brand within the DOM Security group** (often referenced as **DOM RONIS**), and it's positioned as one of the major players in **industrial locks and mechanical components** for manufacturers.

What RONIS is really about is **OEM / turnkey supply**: providing manufacturers with ready-to-integrate locking solutions rather than one-off "retail" locks. DOM's own positioning for DOM RONIS is explicitly **designing, manufacturing and marketing OEM security systems for industry** and delivering **turnkey solutions**.

On the product side, the brand is heavily associated with **robust cam lock families**—e.g., models like the RONIS **8800 / 32150 / 1710** ranges are described as cast, one-piece bodies aimed at durability and proven performance (the "this cabinet will be opened 12,000 times and nobody will lubricate it" design philosophy).
