Specification Summary

Brand	Ronis
Product type	Furniture Lock

Product Description

The RONIS 18600 Round Drawer Furniture Lock is a robust and reliable locking solution designed for wooden furniture, office desks, and cabinets. Manufactured from high-quality materials, this lock is suitable for drawers with a material thickness of up to 22mm. It features a round face with a 40mm backplate and is finished in bright nickel, offering a clean and professional appearance.

Installation is straightforward thanks to the four 3.2mm screw fixing holes, ensuring a secure and stable fit. The lock operates with a 180° clockwise turn to unlock, providing a 9mm bolt throw for dependable security. For added convenience, the key can be removed in both the locked and unlocked positions.

This lock is available in multiple keying configurations, including **Keyed Alike** and **Master Keyed** options under the SM key series, which offers up to 200 different key combinations. Please select your preferred keying option from the options below.

Brand Profile

Ronis

RONIS is an industrial locking brand best known for the unglamorous-but-essential stuff that keeps the modern world closed: **cam locks, quarter-turn locks, enclosure locks, locker/furniture locks**, and other OEM-friendly locking components used in **electrical cabinets, switchgear, lockers, vending/utility enclosures, postal equipment, and industrial furniture**. It's the kind of brand you don't notice until a whole site can't open a cabinet, and then suddenly it's the main character.

Today, **RONIS is a brand within the DOM Security group** (often referenced as **DOM RONIS**), and it's positioned as one of the major players in **industrial locks and mechanical components** for manufacturers.

What RONIS is really about is **OEM / turnkey supply**: providing manufacturers with ready-to-integrate locking solutions rather than one-off "retail" locks. DOM's own positioning for DOM RONIS is explicitly **designing, manufacturing and marketing OEM security systems for industry** and delivering **turnkey solutions**.

On the product side, the brand is heavily associated with **robust cam lock families**—e.g., models like the RONIS **8800 / 32150 / 1710** ranges are described as cast, one-piece bodies aimed at durability and proven performance (the "this cabinet will be opened 12,000 times and nobody will lubricate it" design philosophy).
