Specification Summary

Brand	Ronis
Product type	Nut Fix

Product Description

The RONIS 23750 32mm Padlockable Latchlock is a highly practical, keyless security solution designed for lockers, cupboards, and cabinets. By allowing users to secure the lock using their own padlock, it shifts the responsibility of security to the end-user and completely eliminates the administrative hassle of managing lost or broken keys for facility managers.

Constructed with a durable round face and finished in bright nickel, this latchlock features a 32mm body length and is secured firmly in place using a robust nut fixing. It operates with a smooth 90-degree clockwise movement and is designed to accommodate padlock shackles up to 7.5mm in diameter. It is an ideal choice for schools, gyms, workplaces, and public leisure facilities.

Technical Specifications

- **Brand:** Ronis
- **Manufacturer Reference:** 23750-DS4-L2-C3
- **Body Length:** 32mm
- **Body Width:** 16mm
- **Cam Height:** 30mm

Brand Profile

Ronis

RONIS is an industrial locking brand best known for the unglamorous-but-essential stuff that keeps the modern world closed: **cam locks, quarter-turn locks, enclosure locks, locker/furniture locks**, and other OEM-friendly locking components used in **electrical cabinets, switchgear, lockers, vending/utility enclosures, postal equipment, and industrial furniture**. It's the kind of brand you don't notice until a whole site can't open a cabinet, and then suddenly it's the main character.

Today, **RONIS is a brand within the DOM Security group** (often referenced as **DOM RONIS**), and it's positioned as one of the major players in **industrial locks and mechanical components** for manufacturers.

What RONIS is really about is **OEM / turnkey supply**: providing manufacturers with ready-to-integrate locking solutions rather than one-off "retail" locks. DOM's own positioning for DOM RONIS is explicitly **designing, manufacturing and marketing OEM security systems for industry** and delivering **turnkey solutions**.

On the product side, the brand is heavily associated with **robust cam lock families**—e.g., models like the RONIS **8800 / 32150 / 1710** ranges are described as cast, one-piece bodies aimed at durability and proven performance (the "this cabinet will be opened 12,000 times and nobody will lubricate it" design philosophy).
