Specification Summary

Brand	Ronis
Product type	Nut Fix

Product Description

The RONIS 23770 25mm Nut Fix Latchlock is a highly practical, keyless locking solution designed for lockers, cabinets, and metal furniture. By allowing users to secure their belongings using their own padlock, this padlockable camlock shifts the responsibility of security to the end user. This makes it an ideal choice for schools, leisure centres, and workplaces, as facility managers no longer have to worry about managing, replacing, or tracking lost or broken keys.

Constructed with a durable bright nickel finish, this latchlock features a round face and a secure nut fixing for straightforward installation. It is designed to accept padlocks with a shackle diameter of up to 7.5mm and operates with a smooth 90-degree clockwise movement.

Technical Specifications

- **Body Length:** 25mm
- **Body Diameter:** 19.1mm
- **Body Width:** 19mm
- **Cam Height:** 30mm
- **Maximum Shackle Diameter:** 7.5mm
- **Movement:** 90° clockwise
- **Fixing Type:** Nut fix
- **Finish:** Bright Nickel
- **Hole Profile:** 10800
- **Lock Fixing ID:** L2
- **Direction ID:** DS4
- **Cam Fixing ID:** C3
- **Manufacturer Reference:** 23770-DS4-L2-C3

Key Features

- **Keyless Security:** Users secure the lock with their own padlock, removing the administrative burden of key management for facilities.
- **Robust Fixing:** Supplied with a secure nut fixing for reliable installation on locker and cabinet doors.
- **Durable Finish:** Bright nickel plating provides a clean, professional appearance and resistance to wear.
- **Wide Compatibility:** Accepts padlock shackles up to 7.5mm in diameter, making it compatible with a wide range of standard padlocks.

Brand Profile

Ronis

RONIS is an industrial locking brand best known for the unglamorous-but-essential stuff that keeps the modern world closed: **cam locks, quarter-turn locks, enclosure locks, locker/furniture locks**, and other OEM-friendly locking components used in **electrical cabinets, switchgear, lockers, vending/utility enclosures, postal equipment, and industrial furniture**. It's the kind of brand you don't notice until a whole site can't open a cabinet, and then suddenly it's the main character.

Today, **RONIS is a brand within the DOM Security group** (often referenced as **DOM RONIS**), and it's positioned as one of the major players in **industrial locks and mechanical components** for manufacturers.

What RONIS is really about is **OEM / turnkey supply**: providing manufacturers with ready-to-integrate locking solutions rather than one-off "retail" locks. DOM's own positioning for DOM RONIS is explicitly **designing, manufacturing and marketing OEM security systems for industry** and delivering **turnkey solutions**.

On the product side, the brand is heavily associated with **robust cam lock families**—e.g., models like the RONIS **8800 / 32150 / 1710** ranges are described as cast, one-piece bodies aimed at durability and proven performance (the "this cabinet will be opened 12,000 times and nobody will lubricate it" design philosophy).
