Specification Summary

Brand	Ronis
Product type	Nut Fix

Product Description

The RONIS 25300 Nut Fix Master Keyed Camlock is a reliable and robust locking solution designed for securing metal cupboards, lockers, cabinets, and office furniture. Featuring a durable wafer mechanism and a clean round face, this camlock is finished in bright chrome to provide a professional look alongside excellent corrosion resistance.

Supplied under the CC Master Key Series, this lock is ideal for integration into new or existing master key systems where administrative or master key control is required. It offers up to 2,000 key combinations (differs) for enhanced security and comes complete with two keys as standard. Installation is straightforward and secure thanks to its nut fixing design, ensuring a tight, stable fit on compatible panels.

Technical Specifications

- **Brand:** Ronis
- **Manufacturer Reference:** 25300-D01-L2-C2-CC

Brand Profile

Ronis

RONIS is an industrial locking brand best known for the unglamorous-but-essential stuff that keeps the modern world closed: **cam locks, quarter-turn locks, enclosure locks, locker/furniture locks**, and other OEM-friendly locking components used in **electrical cabinets, switchgear, lockers, vending/utility enclosures, postal equipment, and industrial furniture**. It's the kind of brand you don't notice until a whole site can't open a cabinet, and then suddenly it's the main character.

Today, **RONIS is a brand within the DOM Security group** (often referenced as **DOM RONIS**), and it's positioned as one of the major players in **industrial locks and mechanical components** for manufacturers.

What RONIS is really about is **OEM / turnkey supply**: providing manufacturers with ready-to-integrate locking solutions rather than one-off "retail" locks. DOM's own positioning for DOM RONIS is explicitly **designing, manufacturing and marketing OEM security systems for industry** and delivering **turnkey solutions**.

On the product side, the brand is heavily associated with **robust cam lock families**—e.g., models like the RONIS **8800 / 32150 / 1710** ranges are described as cast, one-piece bodies aimed at durability and proven performance (the "this cabinet will be opened 12,000 times and nobody will lubricate it" design philosophy).
