Specification Summary

Brand	Ronis
Product type	Furniture Lock

Product Description

The RONIS 4500 Square Drawer Furniture Lock is a reliable and robust security solution designed for office desks, wooden furniture, and cabinets. Suitable for drawers up to 22mm thick, this square-faced lock features a durable bright nickel finish and is secured firmly in place using four 3.6mm screw fixing holes. The key operates the wafer mechanism with a 180° rotation to lock and unlock, allowing key removal in both the locked and unlocked positions.

This lock is highly versatile and available in several configurations to suit your specific installation needs. Depending on your requirements, you can select from different bolt throws (9mm or 11mm), keying options (Keyed Alike or Master Keyed), and cylinder movements (180° Clockwise or 180° Clockwise & Anti Clockwise). Please choose your preferred options from the selection below.

Brand Profile

Ronis

RONIS is an industrial locking brand best known for the unglamorous-but-essential stuff that keeps the modern world closed: **cam locks, quarter-turn locks, enclosure locks, locker/furniture locks**, and other OEM-friendly locking components used in **electrical cabinets, switchgear, lockers, vending/utility enclosures, postal equipment, and industrial furniture**. It's the kind of brand you don't notice until a whole site can't open a cabinet, and then suddenly it's the main character.

Today, **RONIS is a brand within the DOM Security group** (often referenced as **DOM RONIS**), and it's positioned as one of the major players in **industrial locks and mechanical components** for manufacturers.

What RONIS is really about is **OEM / turnkey supply**: providing manufacturers with ready-to-integrate locking solutions rather than one-off "retail" locks. DOM's own positioning for DOM RONIS is explicitly **designing, manufacturing and marketing OEM security systems for industry** and delivering **turnkey solutions**.

On the product side, the brand is heavily associated with **robust cam lock families**—e.g., models like the RONIS **8800 / 32150 / 1710** ranges are described as cast, one-piece bodies aimed at durability and proven performance (the "this cabinet will be opened 12,000 times and nobody will lubricate it" design philosophy).
