Specification Summary

Brand	Ronis
Product type	Furniture Lock

Product Description

The RONIS 72400 Rectangular Filing Cabinet Furniture Lock is a high-quality wafer mechanism lock designed to secure multi-drawer units, desk pedestals, and filing cabinets up to 19.5mm thick. Finished in a sleek bright nickel, this lock features a rectangular face and a removable barrel, making it a versatile choice for office furniture security.

Installation is straightforward thanks to the included sprung horseshoe clip, which ensures a secure fit. The lock operates under the SM Master Key series, with a 180-degree clockwise and anti-clockwise key movement. For added convenience, the key can be removed in both the locked and unlocked positions.

This lock is available in multiple keying options, including Keyed Alike and Keyed To Differ, with different manufacturer references. Please select your preferred options from the choices below. Each lock is supplied with two keys.

Technical Specifications

Brand Profile

Ronis

RONIS is an industrial locking brand best known for the unglamorous-but-essential stuff that keeps the modern world closed: **cam locks, quarter-turn locks, enclosure locks, locker/furniture locks**, and other OEM-friendly locking components used in **electrical cabinets, switchgear, lockers, vending/utility enclosures, postal equipment, and industrial furniture**. It's the kind of brand you don't notice until a whole site can't open a cabinet, and then suddenly it's the main character.

Today, **RONIS is a brand within the DOM Security group** (often referenced as **DOM RONIS**), and it's positioned as one of the major players in **industrial locks and mechanical components** for manufacturers.

What RONIS is really about is **OEM / turnkey supply**: providing manufacturers with ready-to-integrate locking solutions rather than one-off "retail" locks. DOM's own positioning for DOM RONIS is explicitly **designing, manufacturing and marketing OEM security systems for industry** and delivering **turnkey solutions**.

On the product side, the brand is heavily associated with **robust cam lock families**—e.g., models like the RONIS **8800 / 32150 / 1710** ranges are described as cast, one-piece bodies aimed at durability and proven performance (the "this cabinet will be opened 12,000 times and nobody will lubricate it" design philosophy).
