### Product Description

The RONIS Tronic Pro is a professional-grade, standalone electronic keypad lock designed specifically for lockers in both dry and wet environments. With its robust IP65 rating, it is the ideal choice for swimming pools, leisure centres, gyms, and workplaces. This versatile lock can be configured to operate in either Single-User mode (perfect for dedicated staff lockers) or Multi-User mode (ideal for shared public lockers).

Equipped with an internal clock, the Tronic Pro supports advanced tracking and programmable automatic opening times, making locker maintenance and security sweeps effortless. The clock also automatically adjusts for daylight saving time. Users operate the lock via a secure 4-digit access code, while administrators have a 5-digit master code for overrides and settings management. Tactile braille buttons and clear visual and acoustic feedback ensure the lock is highly accessible and easy to use.

## Technical Specifications

- **Brand:** Ronis
- **Manufacturer Reference:** TRONIC-PRO-BL
- **Finish:** Black
- **Body Height:** 110mm

- **Body Width:** 120mm
- **Body Depth:** 24mm
- **Face Depth:** 14mm
- **Face Width:** 59mm
- **Bolt Throw:** 14mm
- **Screw Centres:** 94mm
- **Number of Buttons:** 12
- **Code Length:** 4 Digits
- **Mechanism:** Electronic Digital
- **IP Rating:** IP65
- **Power Supply:** 4 x AA batteries (included)
- **Fixing:** Screw
- **Weight:** 490g

## Brand Profile

Ronis

**RONIS** is an industrial locking brand best known for the unglamorous-but-essential stuff that keeps the modern world closed: **cam locks, quarter-turn locks, enclosure locks, locker/furniture locks**, and other OEM-friendly locking components used in **electrical cabinets, switchgear, lockers, vending/utility enclosures, postal equipment, and industrial furniture**. It's the kind of brand you don't notice until a whole site can't open a cabinet, and then suddenly it's the main character.

Today, **RONIS is a brand within the DOM Security group** (often referenced as **DOM RONIS**), and it's positioned as one of the major players in **industrial locks and mechanical components** for manufacturers.

What RONIS is really about is **OEM / turnkey supply**: providing manufacturers with ready-to-integrate locking solutions rather than one-off "retail" locks. DOM's own positioning for DOM RONIS is explicitly **designing, manufacturing and marketing OEM security systems for industry** and delivering **turnkey solutions**.

On the product side, the brand is heavily associated with **robust cam lock families**—e.g., models like the RONIS **8800 / 32150 / 1710** ranges are described as cast, one-piece bodies aimed at durability and proven performance (the "this cabinet will be opened 12,000 times and nobody will lubricate it" design philosophy).
