Specification Summary

Brand	Schuco
Product type	Lever Furniture

Product Description

The Schuco Single Side Only Lever Handle is a premium, professional-grade single handle designed specifically for tubular frame doors and compatible locking systems. Manufactured by Schuco, this high-quality lever handle features a robust integrated return spring, ensuring that the handle always maintains a neat, horizontal position after use.

Crafted with a sleek silver anodised aluminium finish, it offers both durability and a modern aesthetic. The design incorporates concealed fixings to provide a clean, seamless look once installed, making it ideal for both commercial and residential applications where a professional finish is required.

Please note that this is a single handle only (not a pair), and the fixings and 10mm spindle are not supplied.

Technical Specifications

- **Brand:** Schuco
- **Manufacturer Reference:** 210678
- **Part Number:** L32102
- **Finish:** Anodised Aluminium
- **Screw Centres:** 50mm
