Brand	Squire
Product type	Laminated

Product Description

The Squire All Terrain (ATL) rustproof padlock range is engineered for demanding environments that require both reliable security and superior weather protection. Featuring a solid brass body encased in a protective all-weather polymer sleeve and a highly corrosion-resistant stainless steel shackle, these padlocks deliver exceptional performance in the harshest outdoor conditions. They are a popular and dependable choice for securing boats, vans, sheds, gates, and agricultural equipment.

These padlocks are available in multiple configurations to suit your specific security needs. You can choose from body widths of 44mm or 54mm, shackle diameters of 6mm or 9mm, and various vertical and horizontal clearances. Additionally, they are available in Keyed Alike or Keyed To Differ options, and in either boxed or visi packaging. Please select your required size, keying, and packaging options from the selection below.

Each padlock comes complete with 2 keys and is backed by a 10-year manufacturer's guarantee.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
