Specification Summary

Brand	Squire
Product type	Open Shackle

Product Description

The Squire BR40 is a spark-proof, open shackle brass padlock designed specifically for safety lockout-tagout (LOTO) procedures and general security. Featuring a solid 40mm brass body and a 6mm brass shackle, this padlock offers a rust-proof, non-sparking construction that is highly durable and suitable for both indoor and outdoor environments.

To help clearly identify different machinery zones, valves, or departments, the BR40 is available in a choice of high-visibility coloured sleeves. Each padlock is keyed alike within its specific colour group, meaning the keys supplied will only operate locks of the same colour. This makes it an ideal choice for multi-user safety lockout systems.

Please choose your preferred finish from the options below, with options including Blue, Green, Red, and Yellow. Each padlock is supplied boxed with 2 keys.

Technical Specifications

- **Body Width:** 41mm
- **Body Depth:** 16mm
- **Body Material:** Brass
- **Shackle Diameter:** 6mm
- **Shackle Finish:** Solid Brass
- **Horizontal Clearance:** 23mm
- **Vertical Clearance:** 22mm
- **Mechanism:** 5 Pin
- **Keying:** Keyed Alike (by colour)
- **Keys Supplied:** 2
- **Weight:** 128g
- **Finishes Available:** Blue, Green, Red, Yellow (please select below)

Key Features

- **Spark-Proof Construction:** Solid brass body and shackle make it safe for sensitive environments
- **Safety Lockout-Tagout (LOTO) Ready:** Ideal for isolating machinery and securing industrial zones
- **Keyed Alike by Colour:** Convenient multi-lock access where keys only open locks of the matching colour
- **High-Visibility Sleeves:** Available in multiple colours to easily identify different zones or users
- **Rust-Proof & Durable:** Built to withstand both indoor and outdoor conditions
- **Supplied with Keys:** Comes complete with 2 keys per padlock

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
