Specification Summary

Brand	Squire
Product type	Open Shackle

Product Description

The Squire BR40 is a high-visibility, spark-proof open shackle padlock designed for safety lockout/tagout (LOTO) systems and general security applications. Featuring a solid brass body and a solid brass shackle, this padlock provides excellent rust-proof and corrosion-resistant performance, making it ideal for both indoor and outdoor environments, especially where spark prevention is essential.

Equipped with a reliable 5-pin locking mechanism, each padlock is Keyed to Differ (KD) to ensure individual security and comes supplied with 2 keys. The padlock is encased in a protective, high-visibility coloured sleeve, making it easy to identify in busy workplaces or industrial settings.

This padlock is available in a choice of vibrant finishes, including Blue, Green, Red, and Yellow, with corresponding manufacturer references and barcodes. Please select your preferred option from the selection below.

Technical Specifications

- **Body Width:** 41mm
- **Body Depth:** 16mm
- **Body Material:** Brass
- **Shackle Diameter:** 6mm
- **Shackle Finish:** Solid Brass
- **Horizontal Clearance:** 23mm
- **Vertical Clearance:** 22mm
- **Mechanism:** 5 Pin
- **Keying:** Keyed To Differ (KD)
- **Keys Supplied:** 2
- **Weight:** 128g

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
