Specification Summary

Brand	Squire
Product type	Padbolt

Product Description

The Squire Combi 3 Wheel Die Cast Combination Bolt offers a robust, keyless security solution for both indoor and outdoor applications. Featuring a durable die-cast lock body and a solid steel bolt, this weather-resistant locking bolt is ideal for securing sheds, cupboards, lockers, gates, and storage areas without the hassle of carrying keys.

With its 3-wheel recodable combination mechanism, the Combi 3 provides up to 1,000 possible code combinations and features high pick resistance for enhanced peace of mind. For added security, the bolt can be locked in both the open and closed positions, and it is supplied with tamper-resistant clutch head security screws to prevent unauthorised removal.

This versatile combination bolt is available in multiple finishes, including Chrome Plated and Dark Blue. Please select your preferred finish and barcode option from the choices below.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
