Specification Summary

Brand	Squire
Product type	Padbolt

Product Description

The SQUIRE Combi 5 Die Cast Combination Bolt is a highly durable, keyless locking solution designed to secure a wide variety of applications, including sheds, gates, doors, cupboards, and vehicles. Featuring a robust die-cast lock body and steel bolt, this weather-resistant locking bolt is built to withstand harsh outdoor environments and resist rust.

With its 5-wheel combination mechanism, the Combi 5 offers 100,000 possible code operations, allowing you to easily set and recode your own personalized combination. This eliminates the hassle of lost keys and provides convenient, one-handed operation. Simple to install, it serves as a reliable and practical alternative to traditional padlocks and hasps.

Technical Specifications

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
