Brand	Squire
Product type	Combination

Product Description

The Squire CP40 Series Recodable 40mm Combination Padlock offers a perfect blend of convenience, modern design, and reliable security. This high-quality padlock is designed for keyless ease of use, making it an ideal choice for securing sheds, lockers, toolboxes, storage areas, and vehicles.

Featuring a robust 40mm wide die-cast alloy lock body with a dual-compound cover, the CP40 is highly resistant to corrosion, ensuring excellent weather protection for outdoor use. It is equipped with a 6mm diameter hardened steel shackle and a double locking mechanism for enhanced resistance against attack.

With its 4-wheel recodable combination mechanism, you can easily set and reset your own code from 10,000 possible variations. The spaced wheels are designed for easy dialling, and the lock features a push-button spring opening mechanism for quick, hassle-free access.

This versatile padlock is available in a range of configurations to suit your security needs. Depending on your selection, you can choose from open, closed, or long shackle designs, with vertical clearances ranging from 17mm up to 64mm, and horizontal clearances of either 13mm or 17mm. It is also available in boxed or visual (Visi) packaging, with weights ranging from 80g to 150g. Please choose your preferred options from the selection below.

Technical Specifications

- **Body Width:** 40mm
- **Body Thickness:** 22mm
- **Shackle Diameter:** 6mm
- **Shackle Type:** Open, Closed, or Long Shackle (please choose from the options below)
- **Vertical Clearance:** 17mm, 20mm, or 64mm (please choose from the options below)
- **Horizontal Clearance:** 13mm or 17mm (please choose from the options below)
- **Mechanism:** 4-wheel combination (10,000+ combinations)
- **Body Material:** Die-cast alloy with dual-compound cover
- **Shackle Material:** Hardened steel
- **Finish:** Black
- **Packaging:** Boxed or Visi (please choose from the options below)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
