Specification Summary

Brand	Squire
Product type	Combination

Product Description

The Squire CP40S and CP50S All-Weather Combination Padlocks are designed to deliver reliable security in the harshest outdoor environments. Featuring a highly corrosion-resistant stainless steel shackle and a tough die-cast alloy body, these rustproof padlocks are ideal for coastal areas, marine applications, boats, sheds, lockers, and toolboxes. The body is finished with a blue dual-compound cover, providing comfortable handling and an extra layer of weather protection.

Equipped with a fully recodable 4-wheel combination mechanism, these padlocks offer up to 10,000 unique locking variations, removing the hassle of carrying keys. The convenient push-button spring opening mechanism ensures quick and easy access when the correct code is entered.

These padlocks are available in a range of sizes, body widths, shackle diameters, weights, and packaging types (boxed or visi-packed). Please choose your preferred options from the selection below to find the perfect fit for your security needs.

Technical Specifications

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
