Specification Summary

Brand	Squire
Product type	Combination

Product Description

The Squire CP40S and CP50S All-Weather Long Shackle Combination Padlocks are specifically engineered to withstand the harshest outdoor environments. Combining a highly corrosion-resistant stainless steel shackle with a robust die-cast alloy body, these rustproof padlocks are ideal for marine and coastal applications, such as securing boats, sheds, lockers, and toolboxes. Each padlock features a protective blue dual-compound body cover for comfortable handling in all weather conditions.

Equipped with a fully recodable 4-wheel combination mechanism, these locks offer up to 10,000 unique code variations, eliminating the need for keys. The user-friendly push-button spring opening mechanism ensures quick and convenient access.

These padlocks are available in multiple body widths, weights, horizontal clearances, and packaging options (Boxed or Visi). Please choose your preferred specifications from the options below to find the perfect fit for your security needs.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
