Specification Summary

Brand	Squire
Product type	Combination

Product Description

The SQUIRE CP50S All Terrain (also known as CP50/ATL) combination padlock is designed to withstand the harshest outdoor environments. Featuring a robust, weather-protected body and a protective cover over the combination wheels, it prevents dirt, water, and debris from affecting the internal mechanism.

This heavy-duty padlock offers keyless convenience with a recodable 4-wheel combination mechanism, providing up to 10,000 possible locking variations. It is highly suited for multi-user access where carrying keys is impractical, such as on gates, sheds, garages, and toolboxes.

Available in multiple configurations, you can choose from standard open shackle or long shackle options, with vertical clearances ranging from 23mm to 63mm. It is also offered in different finishes, including Black & Blue or Orange. Please select your preferred finish, shackle length, and weight options from the drop-down menu below.

Technical Specifications

- **Brand:** Squire
- **Body Width:** 50mm
- **Body Thickness:** 36mm

- **Shackle Diameter:** 8mm
- **Horizontal Clearance:** 22mm
- **Vertical Clearance:** 23mm or 63mm (please choose from the options below)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
