Brand	Squire
Product type	Combination

Product Description

The Squire CP60 Series Recodable 60mm Combination Padlock offers heavy-duty security with a modern, robust design. Engineered to provide high durability and resistance to attacks, this padlock features a 60mm wide die-cast alloy lock body encased in a dual-compound protective cover for exceptional weather protection and corrosion resistance.

With its 5-wheel recodable mechanism, the CP60 provides 100,000 possible combinations, allowing you to secure your property without the hassle of carrying keys. It features a hardened steel 10mm diameter shackle and a convenient push-button spring opening mechanism for quick, easy access. This padlock is ideal for securing gates, vans, large sheds, garages, and commercial premises.

The CP60 series is available in several configurations, including open shackle, closed shackle, and long shackle options, with varying vertical and horizontal clearances, weights, and packaging types. Please select your preferred options from the choices below.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
