Specification Summary

Brand	Squire
Product type	Combination

Product Description

The Squire DCL1Combi is a robust 70mm discus padlock designed to offer reliable, keyless security for both domestic and commercial applications. Its classic round discus design is specifically engineered to resist physical attacks, making it highly effective against bolt cutters and tampering.

Constructed with a durable stainless steel body, this padlock is highly weather-resistant, making it ideal for outdoor use on gates, sheds, garages, and storage units. It features a 4-wheel combination mechanism providing over 10,000 possible combinations, eliminating the need for keys. The padlock can be easily recoded using the included recoding key. For added physical security, the padlock is equipped with a tough, 8.5mm diameter hardened boron steel shackle.

This padlock is available with different packaging options (Boxed or Visi), barcodes, and manufacturer references (DCL1 COMBI or DCL1 COMBI BX). Please choose your preferred options from the selection below.

Technical Specifications

- **Body Width:** 70mm

- **Body Height:** 70mm
- **Body Material:** Stainless Steel
- **Shackle Diameter:** 8.5mm
- **Shackle Finish:** Hardened Boron Steel
- **Locking Mechanism:** 4-Wheel Combination (10,000+ combinations)
- **Weight:** 310g
- **Recoding:** Key included for recoding
- **Packaging:** Boxed or Visi options available (please select below)

Key Features

- **Weather-Resistant Construction:** Stainless steel body provides excellent protection against the elements, making it perfect for outdoor use.
- **Enhanced Security Design:** Round discus shape minimizes shackle exposure to protect against bolt cutters and physical attacks.
- **Keyless Convenience:** 4-wheel combination mechanism offers over 10,000 resettable codes, removing the need to carry keys.
- **Tough Shackle:** 8.5mm hardened boron steel shackle resists cutting and sawing.
- **Easy Recoding:** Supplied with a dedicated key for quick and secure code changes.
- **Flexible Options:** Available in Boxed or Visi packaging to suit your requirements.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
