Specification Summary

Brand	Squire
Product type	Key Safe

Product Description

The Squire Key Keep Wall Mounted Key Safe (KEYKEEP1) offers a secure and convenient way to store spare keys outside your home or business, ensuring you never get locked out again. It is an ideal solution for granting controlled access to children, relatives, care workers, cleaners, or tradespeople without the need to leave keys under a doormat or flowerpot.

Constructed from durable materials designed to withstand attack, this robust key safe features a user-friendly 4-wheel combination lock that offers up to 10,000 possible combinations. The code can be easily changed as often as required, giving you complete control over who has access.

Suitable for both internal and external installation, the Key Keep comes complete with a weather-resistant cover to protect the dials from the elements and keep the safe discreetly hidden from view. It is perfect for storing house keys, garage keys, shed keys, or access cards.

Technical Specifications

- **Brand:** Squire

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
