Specification Summary

Brand	Squire
Product type	Hasp & Staple

Product Description

The Squire Keybolt is a highly durable, weatherproof locking bolt designed to replace traditional hasps and staples. Offering a smart, all-in-one security solution, it features a robust steel lock body and bolt encased in a protective, weather-resistant cover. This makes it exceptionally reliable for both indoor and outdoor applications, shielding the internal mechanism from rain, rust, and harsh weather conditions.

Equipped with a reliable 4-lever key-operated mechanism, the Keybolt provides dependable security for sheds, gates, cupboards, lockers, and small vans. For added convenience, the bolt can be locked in both the open and closed positions, or used as a standard latch without the locking function. It is supplied with one-way security screws to prevent unauthorised removal, ensuring a permanent and secure installation. Backed by Squire’s 10-year guarantee, this locking bolt offers long-lasting peace of mind.

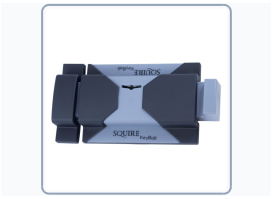

Technical Specifications

- **Brand:** Squire
- **Manufacturer Reference:** KEYBOLT (L23653)
- **Mechanism:** 4 Lever
- **Body Material:** Steel
- **Width:** 95mm
- **Length:** 95mm

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
