Specification Summary

Brand	Squire
Product type	Long Shackle

Product Description

The Squire Lion Brass Long Shackle Padlock with Stainless Steel Shackle is a premium-grade security solution designed for both indoor and outdoor use. Featuring a solid brass body and a rustproof stainless steel shackle, this padlock is exceptionally well-suited for harsh, wet, or marine environments.

Constructed with a thicker body section than padlocks in the Squire Leopard range, the Lion series provides an increased level of security. The padlock features a double-locking mechanism and a reliable 5-pin tumbler system to protect against tampering. The extended 63mm vertical shackle clearance offers the extra reach needed to secure awkward gates, chains, and outdoor equipment. Backed by a 10-year manufacturer's guarantee, this durable padlock offers long-lasting peace of mind.

Technical Specifications

- **Body Width:** 39.5mm
- **Body Depth:** 14mm
- **Shackle Diameter:** 6.5mm
- **Vertical Clearance:** 63mm

- **Horizontal Clearance:** 22.5mm
- **Material:** Solid Brass body with Stainless Steel shackle
- **Mechanism:** 5 Pin tumbler
- **Keys Supplied:** 2
- **Weight:** 190g
- **Manufacturer Reference:** LN4S/2.5

Key Features

- **Rustproof Construction:** Stainless steel long shackle and solid brass body make it ideal for harsh, wet, or marine environments.
- **Enhanced Security:** Thicker body section than the Leopard range for superior resistance to attack.
- **Double Locking:** Extra security with a double-locking mechanism.
- **Extended Reach:** Long shackle design with 63mm vertical clearance for versatile locking applications.
- **Peace of Mind:** Comes with a 10-year manufacturer's guarantee.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
