Specification Summary

Brand	Squire
Product type	Long Shackle

Product Description

The SQUIRE Lion Marine Grade Brass Long Shackle Padlock (Keyed Alike) is a highly durable, rustproof security solution designed specifically to withstand harsh outdoor and coastal environments. Combining a solid brass body with a corrosion-resistant stainless steel shackle, this marine-grade padlock offers reliable protection against the elements, making it ideal for securing boats, marine equipment, gates, and sheds.

This padlock features an extended long shackle with a 63mm vertical clearance, providing the extra reach needed for awkward or hard-to-reach locking points. Security is enhanced by a double-locking mechanism and a precise 5-pin cylinder, offering robust resistance against tampering and forced entry.

As a Keyed Alike (KA) model, this padlock is perfect for users who want the convenience of operating multiple locks with a single key, eliminating the hassle of carrying a bulky keyring. It comes complete with two keys and is backed by Squire’s reassuring 10-year manufacturer's guarantee.

Technical Specifications

- **Body Width:** 39.5mm

- **Body Depth:** 14mm
- **Shackle Diameter:** 6.5mm
- **Vertical Clearance:** 63mm
- **Horizontal Clearance:** 22.5mm
- **Locking Mechanism:** 5 Pin Cylinder
- **Material:** Solid Brass body with Stainless Steel shackle
- **Keys Supplied:** 2
- **Weight:** 190g
- **Manufacturer Reference:** LN4S/2.5/KA1

Key Features

- **Marine-Grade Durability:** Rustproof solid brass body and stainless steel shackle designed for harsh coastal and outdoor environments
- **Extended Reach:** Long shackle design provides 63mm of vertical clearance for versatile locking applications
- **Keyed Alike Convenience:** Allows multiple locks to be opened with the same key, simplifying key management
- **Double-Locking Protection:** Added resistance against physical attacks and pulling forces
- **Versatile Use:** Suitable for both demanding external marine environments and internal applications
- **Peace of Mind:** Backed by a 10-year manufacturer's guarantee

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
