Specification Summary

Brand	Squire
Product type	Open Shackle

Product Description

The SQUIRE Lion Marine Grade Brass Open Shackle Padlock KA (Keyed Alike) is designed to withstand the harshest outdoor and marine environments. Combining a solid brass body with a rustproof stainless steel shackle, this padlock offers exceptional corrosion resistance and reliable security. It is ideal for securing boats, docks, sheds, gates, and other outdoor equipment exposed to saltwater and extreme weather.

As part of a keyed-alike (KA) system, multiple padlocks can be operated using the same key, making it highly convenient for managing security across several locations or applications without carrying a bulky bunch of keys. Each padlock is equipped with a high-security 5-pin cylinder and a double-locking mechanism for added protection against picking and physical attacks.

This padlock is available in a variety of sizes to suit your specific security needs. Body widths range from 31.5mm to 51mm, with corresponding shackle diameters from 5.5mm to 8.8mm. Please select your preferred size and specifications from the options below.

Technical Specifications

- **Body Width:** 31.5mm, 39.5mm, or 51mm (please choose from the options below)
- **Body Depth:** 13mm, 14mm, or 15.5mm (please choose from the options below)
- **Shackle Diameter:** 5.5mm, 6.5mm, or 8.8mm (please choose from the options below)
- **Horizontal Clearance:** 16.5mm, 22.5mm, or 28mm (please choose from the options below)
- **Vertical Clearance:** 19.5mm, 22mm, or 30mm (please choose from the options below)
- **Weight:** 110g, 170g, or 290g (please choose from the options below)
- **Material:** Solid brass body with stainless steel shackle
- **Mechanism:** 5-pin cylinder
- **Locking Mechanism:** Double locking
- **Keys Supplied:** 2 keys per lock
- **Manufacturer Reference:** LN3S/KA1, LN4S/KA1, or LN5S/KA1 (please choose from the options below)

Key Features

- **Marine Grade Protection:** Rustproof construction featuring a solid brass body and stainless steel shackle, specifically designed for harsh outdoor and coastal environments.
- **Keyed Alike Convenience:** Multiple padlocks can be operated with the same key, simplifying security management across multiple locations.
- **Double Locking:** Enhanced security with a double-locking mechanism and a secure 5-pin cylinder.
- **Versatile Use:** Suitable for both internal and external applications, including boats, docks, gates, and sheds.
- **10-Year Guarantee:** Backed by a 10-year manufacturer's guarantee for long-term peace of mind.

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
