Specification Summary

Brand	Squire
Product type	Body Only

Product Description

The Squire SS Stronghold Euro Profile Open Shackle Padlock Body is designed for maximum security in high-risk environments. Constructed with a solid hardened steel body and a hardened boron alloy steel shackle, these heavy-duty padlocks are built to resist severe attacks and harsh weather conditions.

These 'E' versions of the Stronghold range are purpose-designed to accept either an SC65 padlock insert or a modified 71mm double Euro profile cylinder, without the need for drilling. This makes them highly versatile, allowing you to easily integrate the padlock into an existing master key system or replace the cylinder cost-effectively without replacing the entire padlock body. Please note that cylinders are supplied separately.

These padlocks are available in multiple body widths (50mm or 65mm), shackle diameters (10mm or 12.7mm), and security ratings (CEN Grade 4 or 5). Please choose your preferred size, clearance, and specification from the options below.

Technical Specifications

- **Manufacturer Reference:** SS50EM or SS65E (please choose from the options below)
- **Body Width:** 50mm or 65mm (please choose from the options below)
- **Body Thickness:** 26mm or 31.8mm (please choose from the options below)
- **Shackle Diameter:** 10mm or 12.7mm (please choose from the options below)
- **Horizontal Clearance:** 22mm or 29.5mm (please choose from the options below)
- **Vertical Clearance:** 26mm or 29mm (please choose from the options below)
- **Security Standards:** CEN Grade 4 (CBS EN Grade 4) or CEN Grade 5 (CBS EN Grade 5) (please choose from the options below)
- **Mechanism:** Accepts Euro Double Cylinder (71mm Modified) or SC65 padlock insert (supplied separately)
- **Finish:** Electrophoretic anti-corrosion finish
- **Weight:** 450g or 940g (please choose from the options below)

Key Features

- **Cylinder Compatibility:** Accepts a modified 71mm double Euro profile cylinder or SC65 padlock insert for easy integration into master key systems
- **High-Security Construction:** Solid hardened steel body with a hardened boron alloy steel shackle
- **Corrosion Resistant:** Electrophoretic finish provides excellent protection against harsh weather and environments
- **Protective Bumper:** Features a rubber bumper band to protect surrounding surfaces from scratches
- **Cost-Effective Maintenance:** Allows the locking mechanism to be changed without replacing the entire padlock body

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
