Specification Summary

Brand	Squire
Product type	Closed Shackle

Product Description

The SQUIRE SS100 Stronghold Closed Shackle Dual Cylinder Padlock is engineered to provide extreme resistance against the most determined forced attacks. This ultra-heavy-duty padlock features a massive 100mm solid hardened steel body and a 20mm hardened boron alloy steel closed shackle, capable of withstanding a tensile pull of over 24 tonnes. To protect against harsh outdoor environments, the lock is finished with an electrophoretic coating that offers outstanding corrosion resistance.

Ideal for high-risk commercial premises, perimeter gates, and heavy machinery, this padlock is the first of its kind to achieve the prestigious Loss Prevention Certification Board (LPCB) SR4 standard. It features a unique dual-cylinder mechanism that provides advanced protection against picking, drilling, and sawing.

This padlock is available with different keying configurations, including Keyed Alike (where both cylinders operate using the same key) or Keyed to Differ (where each cylinder uses a different key). Please choose your preferred keying option, manufacturer reference (SS100CS or SS100CS/KD), and barcode from the options below.

Technical Specifications

- **Body Width:** 100mm
- **Shackle Diameter:** 20mm
- **Shackle Material:** Hardened boron alloy steel
- **Body Material:** Solid hardened steel
- **Mechanism:** Dual 6-pin cylinders
- **Standards & Accreditations:** CEN Grade 6, LPCB SR4 Approved
- **Keys Supplied:** 4 keys
- **Weight:** 4.496kg

Key Features

- **Extreme Attack Resistance:** Solid hardened steel body and boron alloy shackle withstand over 24 tonnes of tensile pull.
- **Dual Cylinder Security:** Features two 6-pin cylinders offering advanced anti-drill, anti-pick, and anti-saw protection.
- **Corrosion Protection:** Electrophoretic finish provides excellent weather resistance, salt-spray tested for over 200 hours.
- **LPCB SR4 Certified:** The first padlock to achieve this high-security standard on its own.
- **Flexible Keying Options:** Available in Keyed Alike or Keyed to Differ configurations to suit your security requirements (please select from the options below).

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
