Specification Summary

Brand	Squire
Product type	SQUIRE Stronghold Steel Padlock Range
Keyway	Squire Stronghold Padlocks

Product Description

The Squire SS50CS Stronghold Steel 6 Pin Closed Shackle Padlock combines a compact design with market-leading high-security performance. Engineered to resist determined attacks, this padlock is ideal for securing garages, warehouses, lorries, perimeter gates, trailers, and high-security doors.

It features a solid hardened steel body and a hardened boron alloy steel shackle. The closed shackle design provides maximum protection by shielding the shackle from cutting, sawing, and cropping attempts. For reliable operation in the harshest weather conditions, the lock is finished with an electrophoretic coating that has been salt

spray tested for over 200 hours to ensure excellent corrosion resistance.

The high-security 6-pin cylinder mechanism offers over 250,000 key differs and is fully rekeyable. Additionally, the key-retaining design ensures that the key can only be withdrawn when the padlock is securely locked.

This padlock is available in multiple packaging options (Boxed or Visi), weights (510g or 670g), and manufacturer references. Please choose your preferred options from the selection below.

Technical Specifications

- **Body Width:** 50mm
- **Body Thickness:** 26mm
- **Shackle Diameter:** 10mm
- **Vertical Clearance:** 16mm
- **Horizontal Clearance:** 16mm
- **Cylinder System:** Squire Stronghold 6 Pin
- **Mechanism:** 6 Pin
- **Key Differs:** 250,000
- **Keys Supplied:** 2
- **Standards:** CEN Grade 4
- **Packaging:** Boxed or Visi (please choose from the options below)
- **Weight:** 510g or 670g (please choose from the options below)
- **Manufacturer Reference:** SS50CS or SS50CS BOXED (please choose from the options below)
- **Barcode:** 5012245003413 or 5012245040395 (please choose from the options below)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
