Specification Summary

Brand	Squire
Product type	Open Shackle

Product Description

The Squire SS50P5 Stronghold is a high-security, 50mm solid hardened steel padlock designed to deliver outstanding protection in the most demanding environments. Combining a compact design with market-leading performance, this open shackle padlock is ideal for securing garages, warehouses, perimeter gates, commercial vehicles, and trailers.

Engineered to withstand severe physical attacks, the SS50P5 features a solid hardened steel body paired with a 10mm hardened boron alloy steel shackle. It is highly resistant to sawing, drilling, and picking. For long-lasting

outdoor reliability, it is finished with an electrophoretic coating that has been salt spray tested for over 200 hours, ensuring excellent corrosion resistance in harsh weather conditions.

The padlock features a rekeyable 5-pin tumbler mechanism offering up to 1,500 key differs. For added security, the key can only be withdrawn when the padlock is fully locked.

This padlock is available with multiple packaging and weight options. Depending on your requirements, you can choose between Boxed or Visi (visual) packaging, with weights ranging from 490g to 500g. Please select your preferred packaging, weight, manufacturer reference, and barcode from the options below.

Technical Specifications

- **Body Width:** 50mm
- **Body Thickness:** 26mm
- **Shackle Diameter:** 10mm
- **Vertical Clearance:** 26mm
- **Horizontal Clearance:** 22mm
- **Mechanism:** 5-pin cylinder (Squire Stronghold 5 Pin)
- **Security Standard:** CEN Grade 3
- **Keying:** Keyed to differ (2 keys supplied)
- **Key Differs:** 1,500
- **Weight:** 490g or 500g (please choose from the options below)
- **Packaging:** Boxed or Visi (please choose from the options below)
- **Manufacturer Reference:** SS50P5 or SS50P5 BOXED (please choose from the options below)
- **Barcode:** 5012245007756 or 5012245040364 (please choose from the options below)

Brand Profile

Squire

Squire (formally **Henry Squire & Sons Ltd**) is one of the UK's oldest lockmakers — a heritage brand best known for **serious padlocks and chain security**, especially in the motorcycle, commercial, and site-security world. Squire's own history traces the business back to **1780**, when **William Squire** began making locks in **Willenhall** (the Black Country's lockmaking capital). They even supplied locks to the **British Army during the Napoleonic Wars**, which is a wildly specific flex that basically translates to: "we've been thinking about forced entry since muskets were a performance upgrade."

Operationally, the trading entity behind the brand is **Henry Squire & Sons Limited.**

What Squire is known for

Squire's modern identity is anchored in **high-security padlocks** and matching **hardened chains / accessories**, with the flagship line being **Stronghold®**. Their own "About" page calls out products like the **Stronghold SS100cs** as an ultra-high-security production padlock (Squire describe it as the world's strongest production padlock — not subtle, but neither is a 1kg lump of hardened steel).

A good example of how the brand positions itself in real-world standards:

- The **Squire SS65CS Stronghold** is independently listed by **Sold Secure** with **CEN Grade 6** and a **Powered Cycle Gold** rating, alongside features like hardened components and weather resistance.
